

ACOPS Gas Competence

5 Day Training Course

What is ACoPs

Where GAS-SAFE registration is not required i.e. work is only on tourers and motorhomes which are NOT hired out in the course of business, Caravan Industry Training has negotiated with the certification body UK Certification to deliver a competence based training and assessment course aimed specifically at the requirements of caravan dealers. This is an ACoP industry qualification which is assessed by an accredited ACS centre. The course lasts five days, and is usually based in a caravan workshop, with classroom tuition and practical demonstration & assessment.

This course should be seen as the minimum standard for anyone working on gas appliances where GAS-SAFE registration is not required. It can however be used as a 'stepping stone' to advance to the ACS training level. This qualification is now required for membership of the Approved Workshop Scheme.

Caravan Industry Training ensures that engineers attending a CITO ACoPs training course cover the relevant sections specific to touring caravans and motorhomes. Caravan Industry Training can not guarantee other courses will provide an engineer with all the necessary minimum industry standards and therefore will be unable to verify non CITO training for an engineer's ActivePassport.

5 Day Full Course

This is a full five day course for engineers taking their ACoPs gas competence training for the first time or who are refreshing their certificate and are unable to attend the alternative 3day Refresher Course. Engineers taking the ACoPs training for the first time must complete the five day course and are not eligible for the short course.

The course will give you:

A Certificate & ID Card proving satisfactory completion of practical and written assessments in safety and appliances for LPG in caravans/motorhomes, issued by UK Certification Ltd.

This course is for:

Experienced engineers working with LPG on Touring and/or Motorhomes – provided they are not hired out in the course of business. It is NOT sufficient for engineers working on Caravan Holiday Homes or Park Homes and it will not be recognised by GAS-SAFE.

The accreditation lasts for 5 years, after which re-assessment will be required.

Cost & Venues

please refer to our website www.cito.org.uk for the latest training fees, dates and locations.

Syllabus

ACoP Course Syllabus for LPG Awareness

- Course Content:
- Gas Safety Legislation and Regulations
- Characteristics of Liquefied Petroleum Gas
- Characteristics of Complete and Incomplete Combustion
- Expansion, Flammability and Explosive Limits
- Flueing and Ventilation Requirements
- Supply and Operating Pressures
- Pipework Installation and Sizing
- Testing for Gas Tightness
- Gas Emergency Actions and Procedures
- Positioning and Operation of Emergency Controls
- Operation, Positioning and Checking of Gas Controls
- Inspection, Checking and Testing of LPG Appliances

NATIONAL CARAVAN
COUNCIL LIMITED

DEALER TECHNICAL BULLETIN

IMPORTANT NOTICE TO ALL TOURING/MOTOR CARAVAN DEALERS

COMPETENCY OF GAS FITTERS

YOU WILL BE AWARE THAT UNDER THE GAS SAFETY (INSTALLATION & USE) REGULATIONS 1998 (GSI&URS) DEALERS **DO NOT** REQUIRE TO BE GAS-SAFE REGISTERED OR USE GAS-SAFE REGISTERED INSTALLERS TO CARRY OUT GAS WORK ON **PRIVATELY** OWNED TOURING/MOTOR CARAVANS.

HOWEVER, ALL TOURING/MOTOR CARAVANS WHICH ARE OFFERED FOR **HIRE** DO FALL WITHIN SCOPE OF THE GSI&UR'S. TO CARRY OUT GAS WORK ON **HIRE** FLEET TOURING CARAVANS OR MOTORHOMES YOU MUST BE GAS-SAFE REGISTERED.

WORKSHOP STAFF THAT ONLY WORK ON **PRIVATELY** OWNED TOURING CARAVANS & MOTORHOMES

All persons working on gas must be competent. Competency is not actually defined other than for the purposes of GAS-SAFE Registration.

Some Dealers have argued that a person holding a City & Guilds certificate for "Caravan Engineering" would be deemed competent. The NCC does not believe that this alone would adequately demonstrate gas competence.

Those working on gas should at a minimum hold an ACoP gas competency certificate covering caravan installations. We consider this as being the MINIMUM level of competence

CITO is offering five day courses providing ACoP training and assessment on all major gas work in touring/motor caravans. These are held where possible in host caravan dealerships. For further details contact CITO direct on 01252-796085.

WORKSHOP STAFF THAT WORK ON **HIRE** FLEET UNITS MUST BE GAS-SAFE REGISTERED

To become GAS-SAFE registered, an individual must prove their competence by having an ACS level qualification for touring caravan/motorhome.

DEALER TECHNICAL BULLETIN - COMPETENCY OF GAS FITTERS

However, please be warned that under ACS the candidate will have to satisfy certain criteria before they are even allowed onto the course! They will also have to satisfy GAS-SAFE as to competence by demonstrating their ability across a range of tasks over a period of time.

It is unlikely that most caravan service engineers will satisfy the criteria for entry unless they have held a valid ACoP certificate or are apprenticeship served gas fitters/qualified engineers.

CONCLUSION

In the field of health and safety there exists the possibility of both criminal and civil liability and it is only when things go wrong that people appreciate the legal framework.

Criminal or civil liability can expose a business to significant financial loss that may threaten its profitability or even its survival.

THE BUSINESS HAS A LEGAL DUTY TO ENSURE THAT ANY EMPLOYEE OR CONTRACTOR WORKING ON GAS INSTALLATIONS IS COMPETENT TO DO SO.

If any member requires further information on the GSI&UR's and their application to the caravan industry they should contact the NCC's Technical Services on 01252-318251.

Terms & Conditions

Section I [Applications & Booking]

1. Receipt of a signed booking form by SkillsActive is regarded as acceptance of these Terms and Conditions.
2. All Applications must be made in writing and received at the SkillsActive: Caravan Industry Training office by the closing date (where applicable). SkillsActive will be unable to accept unsigned booking forms.
3. Bookings will be confirmed if minimum numbers are reached by the end of the cancellation period (see section iii).

Section II [Payment]

4. Invoices are raised upon confirmation of the course. Unless otherwise stated, invoices must be paid within 30 days and/or before the start of the course (which ever is sooner).
5. All SkillsActive training is subject to VAT at the current rate.
6. For any course where companies are benefiting from a subsidy additional forms will have to be completed. If these forms are not completed, or in case of late cancellation of any places (see below) the business will be invoiced and liable for the cost of the place.
7. If your business is a member of the National Caravan Council or British Holiday & Home Park Association, please ensure that you indicate on the booking form and include your membership number. Any changes requested to invoice address or due amount if membership is not indicated at time of registration, will result in an administration fee. Applicants must be members at the time of registration – discount can not be made against subsequent membership.

Section III [Cancellation]

8. Due to the financial commitments SkillsActive must make in arranging training, a cancellation period is strictly adhered to and no refund can be made after this date. For all gas and electrical training, cancellation is possible up to six weeks before the start of the course. Unless otherwise stated all other training can be cancelled up to four weeks before the start of the course. This applies equally to bookings received after the cancellation date.
9. There will be an obligation upon the delegate's employer to honour any invoices relating to course applications when bookings are cancelled after the latest date for any course.
10. In the event a delegate is unable to attend a training event, the delegate or employer must contact SkillsActive Caravan Industry Training by telephone to receive further instruction.
11. It is usually possible to transfer the place to another employee (an administrative charge of not more than 20% of the course fee may be required for courses with external verification). However cancellation of the place will not be possible outside of the cancellation period.
12. SkillsActive may on occasion have to cancel a course at short notice if circumstances dictate. SkillsActive and its Affiliates shall not be responsible for any loss, damage, delay or failure of performance resulting directly or indirectly from any cause which is beyond its reasonable control ("Force Majeure"). SkillsActive will always endeavour to rearrange the course as soon as possible and at the least inconvenience to the candidate. In the event that this is not possible, CITO will refund the course fee in full.

We strongly suggest that employers have appropriate insurance against events which may prevent them from attending the training which they are committed to.

Section IV [Grievance]

13. In the event of dissatisfaction with any aspect of the training, CITO must be notified in writing within 7 days of the course.

Section V [Ownership of Qualification & Certificate]

14. Regardless who pays for the exam, in all instances the qualification and accompanying certificate is still the property of the employee. SkillsActive cannot withhold the certificate from a candidate who successfully completes their assessment, even if they subsequently leave your employment. Employers are advised to consider the merits of a pre-training agreement between themselves and their employees prior to enrolment. Please refer to FAQ and Advice section of our webpage for guidance on writing a pre-training agreement.
